The Building and Grounds Ministry of the Church

This ministry provides opportunities to worship God and express your devotion to God by serving as caretakers of our church facilities. We believe beautiful grounds and clean, well cared for buildings are vital as first impressions to those whom God leads to the church.

This type of care ministry not only shows that we appreciate the facility God has given us, but also serves as a ministry to our guests. It is our ministry philosophy that we create an environment where people sense God's presence just by being on our grounds.

The Building and Grounds Ministry is a great place for people who like to work outdoors or indoors. There are opportunities for people to plant flower gardens, care for trees, mow grass and blow snow, or paint walls, scrub windows, and move chairs around.

If this resonates with your heart, please consider being part of our First Impressions Ministry Team.
Ministry Team!
