## *A New Ministry Team Promoting the Ministries of the Church*

If you've been around the church for any length of time you know that a lot goes on here.

From children to adults, each and every day of the week, ministry is taking place.

The Communications Team will make sure the word gets out to all of our church family as well as to the community around us.

We need persons to help with print publicity such as publication of the church newsletter, posters and flyers, brochures, etc. The team will also oversee the development and administration of church web sites.

Lastly, the team will oversee communications to radio, newspaper and other available media to promote special ministry opportunities to the public.

If you have a gift for graphic arts design, web site development, or have an interest in promoting our ministries to the church and community consider be part of the Communications Ministry Team!

*We're better together!
